Skills

Working Experience

2021/dec – current	Associate Software Engineer	Tech Mahindra
2020/nov – 2021/dec	Cyber Security Analyst Performing Vulnerable Assessment against (Network,web,Iot) Network configuring Iot Device Tested BHIM application and designed test cases.	Deltaphi Tech Pvt Ltd
2019/nov – 2020/feb	Data Engineer Developed Agriculture based IOT product. Responsible for programming Raspberry pi and Arduino. Testing wireless Lora Module. Connecting SQL database with Raspberry pi. Writing protocol to make communication with Raspberry and Arduino	Mayagreens

EDUCATION

Under Graduate

2016-2020	B.E Electronics & Communication CGPA - 6.9	Coimbatore Institute of Engineering and Technology
2016	HSC 73%	Sri Krishna Matric
2014	SSL 85%	Sri Krishna Matric

PROGRAMMING LANGUAGE

Python Java Dart Embedded C

OPERATING SYSTEM

Windows Kali Linux Ubuntu Rasbian

FRAMEWORKS

Nmap Wireshark Zenmap Bettercap aircrack-ng
theharvester dirbuster Google Cloud Azure

SOFTWARES

Adobe Photoshop Premere Pro After Effects Lightroom
Autodesk Fusion 360 Arduino Audacity

Others

Sqlite Arduino Raspberry pi VM Ware
