

Animals in daily life

MCQ

1. Animals are closely related to humans mainly because they
 - a) live in forests
 - b) are dangerous
 - c) are useful in daily life
 - d) cannot survive alone

Answer: c) are useful in daily life

2. Which of the following is NOT a use of animals for humans?
 - a) Food
 - b) Clothing
 - c) Transportation
 - d) Electricity

Answer: d) Electricity

3. Food sources are those that
 - a) give shelter
 - b) provide food for survival
 - c) protect animals
 - d) produce fibres

Answer: b) provide food for survival

4. Which of the following is an animal food product?
 - a) Rice
 - b) Wheat
 - c) Milk
 - d) Maize

Answer: c) Milk

5. Milk is secreted from the
 - a) liver
 - b) stomach
 - c) mammary glands
 - d) lungs

Answer: c) mammary glands

6. Milk mainly nourishes the

- a) adult animals
- b) young ones
- c) plants
- d) insects

Answer: b) young ones

7. Which animal is NOT a source of milk?

- a) Cow
- b) Goat
- c) Camel
- d) Hen

Answer: d) Hen

8. Milk is rich in

- a) iron and iodine
- b) protein and calcium
- c) fat only
- d) sugar only

Answer: b) protein and calcium

9. Paneer and cheese are products made from

- a) meat
- b) eggs
- c) milk
- d) honey

Answer: c) milk

10. Which of the following helps in strong bones and teeth?

- a) Meat
- b) Milk
- c) Oil
- d) Sugar

Answer: b) Milk

11. Eggs are laid by

- a) mammals
- b) reptiles only
- c) birds

d) plants

Answer: c) birds

12. Which bird's eggs are commonly eaten by humans?

a) Crow

b) Hen

c) Eagle

d) Parrot

Answer: b) Hen

13. Eggs are rich in

a) carbohydrates

b) vitamins only

c) proteins

d) minerals only

Answer: c) proteins

14. The egg white mainly contains

a) fat

b) protein

c) sugar

d) calcium

Answer: b) protein

15. The yolk of an egg contains

a) water

b) fibre

c) fat

d) starch

Answer: c) fat

16. Honey is produced by

a) ants

b) butterflies

c) honey bees

d) wasps

Answer: c) honey bees

17. Honey bees collect nectar from

a) fruits

- b) leaves
- c) flowers
- d) stems

Answer: c) flowers

18. Honey is stored in

- a) nests
- b) holes
- c) honeycombs
- d) soil

Answer: c) honeycombs

19. Which bee collects nectar?

- a) Queen bee
- b) Drone
- c) Worker bee
- d) Soldier bee

Answer: c) Worker bee

20. The special sac used to store nectar is called

- a) pollen sac
- b) honey sac
- c) food sac
- d) wax sac

Answer: b) honey sac

21. The quality of honey depends on

- a) size of the hive
- b) number of bees
- c) flowers visited
- d) season only

Answer: c) flowers visited

22. Honey has antiseptic properties, so it is used as

- a) poison
- b) blood purifier
- c) fertilizer
- d) dye

Answer: b) blood purifier

23. Honey helps to cure

- a) cough and cold
- b) fractures
- c) blindness
- d) burns only

Answer: a) cough and cold

24. Meat is obtained from

- a) plants
- b) animals
- c) minerals
- d) fungi

Answer: b) animals

25. Meat includes

- a) bones only
- b) skin only
- c) muscles and fat
- d) hair

Answer: c) muscles and fat

26. Poultry farming is related to

- a) fishes
- b) insects
- c) birds
- d) mammals

Answer: c) birds

27. Chickens reared for eggs are called

- a) broilers
- b) layers
- c) feeders
- d) growers

Answer: b) layers

28. Chickens reared for meat are known as

- a) layers
- b) breeders
- c) broilers

d) roasters

Answer: c) broilers

29. Poultry birds should be kept in a place that is

a) dark and closed

b) noisy

c) well-ventilated

d) wet

Answer: c) well-ventilated

30. Poultry feed mainly contains

a) plastic and waste

b) grains and oil cakes

c) meat only

d) fruits only

Answer: b) grains and oil cakes

31. Diseases in poultry can be prevented by

a) starvation

b) vaccination

c) isolation only

d) sunlight

Answer: b) vaccination

32. Wool is obtained mainly from

a) plants

b) sheep

c) insects

d) birds

Answer: b) sheep

33. Wool is an example of

a) synthetic fibre

b) plant fibre

c) animal fibre

d) mineral fibre

Answer: c) animal fibre

34. Silk is obtained from

a) cotton plant

- b) sheep hair
- c) silkworm cocoon
- d) jute plant

Answer: c) silkworm cocoon

35. Which is NOT an animal fibre?

- a) Wool
- b) Silk
- c) Cotton
- d) Alpaca wool

Answer: c) Cotton

36. The first step in wool processing is

- a) carding
- b) spinning
- c) shearing
- d) sorting

Answer: c) shearing

37. Washing of wool is called

- a) carding
- b) scouring
- c) spinning
- d) weaving

Answer: b) scouring

38. Sorting of wool is done based on

- a) colour only
- b) price
- c) quality and length
- d) weight

Answer: c) quality and length

39. Carding helps in

- a) washing wool
- b) killing germs
- c) aligning fibres
- d) dyeing wool

Answer: c) aligning fibres

40. Spinning converts fibres into

- a) cloth
- b) yarn
- c) cocoon
- d) fleece

Answer: b) yarn

41. Wool keeps us warm because it

- a) absorbs water
- b) traps air
- c) shines
- d) is heavy

Answer: b) traps air

42. Wool is naturally

- a) inflammable
- b) flame resistant
- c) waterproof
- d) sticky

Answer: b) flame resistant

43. Silk moth lays eggs during

- a) winter
- b) summer
- c) spring
- d) autumn

Answer: c) spring

44. The larva of silk moth is called

- a) pupa
- b) silkworm
- c) caterpillar
- d) egg

Answer: b) silkworm

45. Silkworm feeds on

- a) neem leaves
- b) mango leaves
- c) mulberry leaves

d) banana leaves

Answer: c) mulberry leaves

46. The protective covering around pupa is

a) shell

b) cocoon

c) skin

d) fleece

Answer: b) cocoon

47. Sericulture means

a) rearing sheep

b) fishing

c) silk production

d) poultry farming

Answer: c) silk production

48. Silk is the strongest

a) synthetic fibre

b) mineral fibre

c) natural fibre

d) plant fibre

Answer: c) natural fibre

49. Silk has poor resistance to

a) water

b) heat

c) sunlight

d) dye

Answer: c) sunlight

50. Silk sarees are examples of

a) casual wear

b) sportswear

c) high fashion clothing

d) uniforms

Answer: c) high fashion clothing

51. Hazards are conditions that cause

a) comfort

- b) health benefits
- c) injury or illness
- d) happiness

Answer: c) injury or illness

52. Silk industry workers may suffer from

- a) malaria
- b) arthritis
- c) diabetes
- d) cancer

Answer: b) arthritis

53. Wool industry workers often suffer from

- a) heart disease
- b) asthma
- c) eye infection
- d) tooth decay

Answer: b) asthma

54. Anthrax is treated using

- a) aspirin
- b) insulin
- c) penicillin
- d) paracetamol

Answer: c) penicillin

55. Ahimsa silk is also known as

- a) raw silk
- b) peace silk
- c) wild silk
- d) golden silk

Answer: b) peace silk

56. Ahimsa silk production avoids

- a) dyeing
- b) weaving
- c) killing silkworms
- d) reeling

Answer: c) killing silkworms

57. Ahimsa silk was proposed in India in

- a) 1980
- b) 1992
- c) 2005
- d) 2010

Answer: b) 1992

58. Protecting animals is important because they are

- a) dangerous
- b) less intelligent
- c) living organisms
- d) property

Answer: c) living organisms

59. Animal husbandry deals with

- a) wild animals
- b) plant breeding
- c) care and breeding of animals
- d) hunting

Answer: c) care and breeding of animals

60. Feeding and disease control come under

- a) sericulture
- b) agriculture
- c) animal husbandry
- d) apiculture

Answer: c) animal husbandry

61. The Prevention of Cruelty to Animals Act was passed in

- a) 1947
- b) 1950
- c) 1960
- d) 1975

Answer: c) 1960

62. Which ministry is involved in animal protection?

- a) Finance
- b) Education
- c) Environment and Forest

d) Defence

Answer: c) Environment and Forest

63. Wool fibres are mainly made of

a) starch

b) cellulose

c) protein

d) fat

Answer: c) protein

64. Silk thread is obtained by

a) cutting cocoon

b) unwinding cocoon

c) breaking cocoon

d) drying cocoon

Answer: b) unwinding cocoon

65. The pupa inside the cocoon is killed by

a) freezing

b) drying

c) boiling

d) crushing

Answer: c) boiling

66. Honey contains vitamins like

a) A and D

b) C and B-complex

c) K only

d) E only

Answer: b) C and B-complex

67. Honey acts as a preservative due to

a) sugar

b) formic acid

c) water

d) pollen

Answer: b) formic acid

68. Wool helps reduce

a) noise

- b) light
- c) water
- d) electricity

Answer: a) noise

69. Silk surgical threads are used because silk is

- a) cheap
- b) soft and strong
- c) waterproof
- d) heavy

Answer: b) soft and strong

70. Honey hunters mainly collect honey from

- a) cities
- b) farms
- c) forests
- d) houses

Answer: c) forests

71. Bees store pollen in

- a) leaves
- b) honeycomb
- c) flowers
- d) soil

Answer: b) honeycomb

72. Wool blankets are useful in

- a) summer
- b) rainy season
- c) winter
- d) spring

Answer: c) winter

73. The adult stage of silkworm is

- a) larva
- b) pupa
- c) moth
- d) egg

Answer: c) moth

74. Silk is a poor conductor of

- a) electricity
- b) heat
- c) sound
- d) light

Answer: b) heat

75. Breeding of chickens on a large scale is called

- a) sericulture
- b) poultry farming
- c) apiculture
- d) animal husbandry

Answer: b) poultry farming

76. Honey improves

- a) digestion
- b) hearing
- c) eyesight
- d) memory only

Answer: a) digestion

77. Wool fibres have overlapping

- a) scales
- b) roots
- c) nodes
- d) fibres

Answer: a) scales

78. Silk cocoons are the size of a

- a) marble
- b) lemon
- c) cotton ball
- d) football

Answer: c) cotton ball

79. The responsibility of protecting animals lies with

- a) animals
- b) government only
- c) humans

d) nature

Answer: c) humans

80. Treating animals kindly reflects

a) weakness

b) intelligence and responsibility

c) fear

d) carelessness

Answer: b) intelligence and responsibility
