

Health and Hygiene

MCQ

1. A healthy person is one who is

- a) Free from stress only
- b) Physically fit only
- c) Mentally and physically fit
- d) Free from work

Answer: c) Mentally and physically fit

2. Health is important because it is the key to

- a) Wealth
- b) Education
- c) Happiness
- d) Power

Answer: c) Happiness

3. Hygiene mainly helps to

- a) Increase income
- b) Prevent diseases
- c) Increase population
- d) Reduce food intake

Answer: b) Prevent diseases

4. Disease is defined as

- a) Normal condition of body
- b) Functional or physical change from normal state
- c) Mental happiness
- d) Social wellbeing

Answer: b) Functional or physical change from normal state

5. Health is a state of complete

- a) Physical well-being only
- b) Mental well-being only
- c) Physical, mental and social well-being
- d) Absence of disease only

Answer: c) Physical, mental and social well-being

6. Good health depends on

- a) Environment only
- b) Diet only
- c) Balance between body and environment
- d) Medicines

Answer: c) Balance between body and environment

7. A person is healthy when he/she is

- a) Free from infectious diseases only
- b) Free from deficiency diseases only
- c) Free from all diseases and mentally happy
- d) Rich

Answer: c) Free from all diseases and mentally happy

8. Hygiene refers to

- a) Medical treatment
- b) Physical exercise
- c) Keeping oneself and surroundings clean
- d) Eating food

Answer: c) Keeping oneself and surroundings clean

9. Hygiene is the foundation of

- a) Education

b) Healthy living

c) Employment

d) Recreation

Answer: b) Healthy living

10. Cleanliness means

a) Washing hands only

b) Cleaning surroundings only

c) Maintenance of personal and environmental hygiene

d) Using perfumes

Answer: c) Maintenance of personal and environmental hygiene

11. Cleanliness helps to

a) Increase germs

b) Cause diseases

c) Protect from diseases

d) Reduce immunity

Answer: c) Protect from diseases

12. Faecal-oral route of transmission occurs through

a) Air

b) Touch

c) Contaminated food and water

d) Sound

Answer: c) Contaminated food and water

13. Personal hygiene helps to

a) Increase germs

b) Reduce immunity

c) Prevent sickness

d) Spread disease

Answer: c) Prevent sickness

14. Pathogens are

a) Helpful bacteria

b) Disease-causing organisms

c) Body cells

d) Medicines

Answer: b) Disease-causing organisms

15. Which of the following is NOT a pathogen?

a) Virus

b) Bacteria

c) Fungus

d) Vitamin

Answer: d) Vitamin

16. Pathogens cause disease when

a) Immune system is strong

b) They enter sterile body parts

c) Body is clean

d) Diet is balanced

Answer: b) They enter sterile body parts

17. Cold and flu are

a) Non-communicable diseases

b) Genetic diseases

c) Communicable diseases

d) Deficiency diseases

Answer: c) Communicable diseases

18. Cold and flu are caused by

- a) Bacteria only
- b) Viruses only
- c) Both bacteria and viruses
- d) Fungi

Answer: c) Both bacteria and viruses

19. Sneezing spreads diseases through

- a) Food
- b) Droplets
- c) Water
- d) Soil

Answer: b) Droplets

20. Using a handkerchief while sneezing helps to

- a) Spread germs
- b) Prevent disease spread
- c) Increase infection
- d) Reduce immunity

Answer: b) Prevent disease spread

21. Community hygiene refers to

- a) Personal habits
- b) School cleanliness
- c) Hygiene maintained by a community
- d) Hospital care

Answer: c) Hygiene maintained by a community

22. Proper waste segregation uses

- a) One dustbin

b) Red and yellow bins

c) Green and blue bins

d) Plastic bags

Answer: c) Green and blue bins

23. Dengue is spread by

a) Housefly

b) Aedes aegypti mosquito

c) Anopheles mosquito

d) Culex mosquito

Answer: b) Aedes aegypti mosquito

24. Dengue virus belongs to

a) Coronavirus family

b) Retrovirus family

c) Flavivirus family

d) Poxvirus family

Answer: c) Flavivirus family

25. Dengue reduces

a) RBC count

b) WBC count

c) Blood platelets

d) Haemoglobin

Answer: c) Blood platelets

26. Aedes mosquito flight range is about

a) 10–20 m

b) 50–100 m

c) 200–300 m

d) 1 km

Answer: b) 50–100 m

27. Dengue symptoms include

a) Joint pain and fever

b) Skin rashes only

c) Hair loss

d) Tooth decay

Answer: a) Joint pain and fever

28. Dengue prevention includes

a) Stagnation of water

b) Avoiding mosquito bites

c) Drinking cold water

d) Eating sweets

Answer: b) Avoiding mosquito bites

29. There is no specific treatment for

a) Cholera

b) Typhoid

c) Dengue

d) TB

Answer: c) Dengue

30. The body is compared to a

a) Plant

b) Machine

c) Animal

d) Stone

Answer: b) Machine

31. Dental care is related to

- a) Eye health
- b) Oral hygiene
- c) Hair care
- d) Skin care

Answer: b) Oral hygiene

32. Mastication means

- a) Swallowing food
- b) Chewing food
- c) Digesting food
- d) Absorbing food

Answer: b) Chewing food

33. Teeth help in

- a) Digestion and speech
- b) Breathing
- c) Circulation
- d) Excretion

Answer: a) Digestion and speech

34. Brushing teeth should be done

- a) Once a week
- b) Once a day
- c) Twice a day
- d) Occasionally

Answer: c) Twice a day

35. Eyes are called

- a) Doors to body

b) Windows to the world

c) Mirrors of mind

d) Lenses of brain

Answer: b) Windows to the world

36. About how much information is received through eyes?

a) 40%

b) 50%

c) 80%

d) 100%

Answer: c) 80%

37. Vitamin important for vision is

a) Vitamin D

b) Vitamin A

c) Vitamin B

d) Vitamin K

Answer: b) Vitamin A

38. Wearing sunglasses protects eyes from

a) Heat

b) UV radiation

c) Dust only

d) Water

Answer: b) UV radiation

39. Hair condition reflects

a) Age only

b) Nutritional status

c) Gender

d) Height

Answer: b) Nutritional status

40. Premature greying of hair is caused by

a) Excess sleep

b) Nutritional deficiency

c) Clean hair

d) Exercise

Answer: b) Nutritional deficiency

41. Hair should be washed regularly to remove

a) Water

b) Dust, oil and dead cells

c) Colour

d) Length

Answer: b) Dust, oil and dead cells

42. Disease means

a) Normal condition

b) Abnormal condition of body

c) Healthy state

d) Balanced diet

Answer: b) Abnormal condition of body

43. Diseases may be caused due to

a) Balanced diet

b) Infections

c) Clean environment

d) Exercise

Answer: b) Infections

44. Diseases are classified into

- a) Two types
- b) Three types
- c) Four types
- d) Five types

Answer: a) Two types

45. Communicable diseases spread through

- a) Air, water, food and contact
- b) Genetics only
- c) Lifestyle only
- d) Age

Answer: a) Air, water, food and contact

46. HIV is a

- a) Non-communicable disease
- b) Communicable disease
- c) Deficiency disease
- d) Genetic disorder

Answer: b) Communicable disease

47. Non-communicable diseases

- a) Spread easily
- b) Are infectious
- c) Do not spread person to person
- d) Are caused by bacteria

Answer: c) Do not spread person to person

48. Diabetes is a

- a) Communicable disease

- b) Viral disease
- c) Non-communicable disease
- d) Bacterial disease

Answer: c) Non-communicable disease

49. Antibiotics cannot cure

- a) TB
- b) Cholera
- c) Non-communicable diseases
- d) Typhoid

Answer: c) Non-communicable diseases

50. Anaemia is caused due to lack of

- a) Calcium
- b) Iron
- c) Iodine
- d) Protein

Answer: b) Iron

51. Pale skin is a sign of

- a) Diabetes
- b) Anaemia
- c) Obesity
- d) Cancer

Answer: b) Anaemia

52. Green leafy vegetables are rich in

- a) Sugar
- b) Iron
- c) Fat

d) Salt

Answer: b) Iron

53. First aid means

a) Final treatment

b) Immediate treatment

c) Surgery

d) Diagnosis

Answer: b) Immediate treatment

54. ORS is used in

a) Dengue

b) Cholera

c) Rabies

d) TB

Answer: b) Cholera

55. Burns are caused by

a) Cold

b) Heat and chemicals

c) Wind

d) Sound

Answer: b) Heat and chemicals

56. First-degree burns affect

a) Muscle

b) Bone

c) Epidermis

d) Blood

Answer: c) Epidermis

57. Second-degree burns affect

- a) Epidermis only
- b) Dermis only
- c) Epidermis and dermis
- d) Bone

Answer: c) Epidermis and dermis

58. Third-degree burns damage

- a) Skin only
- b) Skin completely and tissues
- c) Hair only
- d) Nails only

Answer: b) Skin completely and tissues

59. Ice should

- a) Be used on burns
- b) Never be used on burns
- c) Be applied immediately
- d) Be mixed with cream

Answer: b) Never be used on burns

60. A cut is

- a) Surface damage
- b) Deep damage into tissues
- c) No damage
- d) Internal injury

Answer: b) Deep damage into tissues

61. A scratch is

- a) Deep wound

- b) Muscle injury
- c) Surface damage
- d) Bone injury

Answer: c) Surface damage

62. Gloves should be worn to prevent

- a) Dirt
- b) HIV and blood-borne diseases
- c) Pain
- d) Fever

Answer: b) HIV and blood-borne diseases

63. Washing hands prevents

- a) Growth
- b) Germ transmission
- c) Nutrition loss
- d) Hair fall

Answer: b) Germ transmission

64. Tuberculosis is caused by

- a) Virus
- b) Fungus
- c) Bacteria
- d) Parasite

Answer: c) Bacteria

65. TB spreads through

- a) Food only
- b) Water only
- c) Air

d) Soil

Answer: c) Air

66. BCG vaccine is used for

a) Cholera

b) TB

c) Typhoid

d) Rabies

Answer: b) TB

67. Cholera is caused by

a) Salmonella

b) Vibrio cholera

c) Virus

d) Protozoa

Answer: b) Vibrio cholera

68. Cholera spreads through

a) Air

b) Mosquito

c) Contaminated food and water

d) Touch

Answer: c) Contaminated food and water

69. Typhoid is caused by

a) Virus

b) Fungus

c) Salmonella typhi

d) Parasite

Answer: c) Salmonella typhi

70. Hepatitis affects the

- a) Heart
- b) Kidney
- c) Liver
- d) Brain

Answer: c) Liver

71. Chickenpox is caused by

- a) Bacteria
- b) Fungus
- c) Virus
- d) Parasite

Answer: c) Virus

72. Best prevention for chickenpox is

- a) Antibiotics
- b) Exercise
- c) Vaccination
- d) Diet

Answer: c) Vaccination

73. Rabies spreads through

- a) Air
- b) Water
- c) Saliva of infected animals
- d) Food

Answer: c) Saliva of infected animals

74. Fear of water is called

- a) Claustrophobia

b) Hydrophobia

c) Acrophobia

d) Photophobia

Answer: b) Hydrophobia

75. Rabies symptoms appear after

a) 1 day

b) 1 week

c) 2–12 weeks

d) 1 year

Answer: c) 2–12 weeks

76. Vaccines help by

a) Killing germs directly

b) Stimulating immune system

c) Causing disease

d) Reducing nutrition

Answer: b) Stimulating immune system

77. Polio vaccine is given in

a) Old age

b) Early childhood

c) Adolescence

d) Adulthood

Answer: b) Early childhood

78. Leucoderma affects

a) Hair

b) Skin pigment

c) Teeth

d) Eyes

Answer: b) Skin pigment

79. Melanin gives

a) Strength to skin

b) Colour to skin

c) Smoothness to skin

d) Protection from bacteria

Answer: b) Colour to skin

80. Anaemia is common in

a) Children and women

b) Men only

c) Elderly only

d) Athletes

Answer: a) Children and women

81. Iron absorption is reduced by

a) Fruits

b) Milk

c) Tea and coffee

d) Vegetables

Answer: c) Tea and coffee

82. Cod liver oil is a

a) Natural food

b) Iron pill

c) Protein

d) Carbohydrate

Answer: b) Iron pill

83.First aid aims to

- a) Cure disease
- b) Save life
- c) Replace doctor
- d) Diagnose illness

Answer: b) Save life

84.Fire extinguisher is important to

- a) Increase fire
- b) Prevent burns
- c) Cause burns
- d) Produce smoke

Answer: b) Prevent burns

85.Wearing mask helps to

- a) Increase disease
- b) Prevent infection
- c) Reduce oxygen
- d) Cause cough

Answer: b) Prevent infection

86.Alexander Fleming discovered

- a) Vaccine
- b) Insulin
- c) Penicillin
- d) ORS

Answer: c) Penicillin

87.Penicillin was discovered in

- a) 1901

b) 1918

c) 1928

d) 1945

Answer: c) 1928

88. Penicillin is called

a) King of medicines

b) Queen of medicines

c) Father of medicines

d) Mother of medicines

Answer: b) Queen of medicines

89. Penicillin helped cure

a) Cancer

b) Diabetes

c) Pneumonia

d) Asthma

Answer: c) Pneumonia

90. Health risk behaviour includes

a) Exercise

b) Balanced diet

c) Tobacco use

d) Hygiene

Answer: c) Tobacco use

91. Using toilets prevents

a) Growth

b) Faecal disease spread

c) Hunger

d) Thirst

Answer: b) Faecal disease spread

92.Safe drinking water prevents

a) Airborne diseases

b) Waterborne diseases

c) Genetic diseases

d) Injuries

Answer: b) Waterborne diseases

93.Wearing gloves during first aid prevents

a) Injury

b) Fatigue

c) Infection

d) Burns

Answer: c) Infection

94.Scratches may cause

a) Fever

b) Infection

c) Blindness

d) Deafness

Answer: b) Infection

95.Alcohol-based hand rub is used when

a) Soap is available

b) Water is dirty

c) Soap and water are unavailable

d) Hands are dry

Answer: c) Soap and water are unavailable

96.Excessive alcohol consumption leads to

- a) Good health
- b) Chronic disease
- c) Immunity boost
- d) Nutrition gain

Answer: b) Chronic disease

97.Community hygiene helps to

- a) Increase pollution
- b) Spread disease
- c) Improve public health
- d) Reduce immunity

Answer: c) Improve public health

98.Eye rubbing with dirty hands causes

- a) Injury
- b) Eye diseases
- c) Sleep
- d) Pain relief

Answer: b) Eye diseases

99.Proper sewage disposal prevents

- a) Growth
- b) Water contamination
- c) Nutrition
- d) Education

Answer: b) Water contamination

100. Balanced diet, hygiene and clean environment help to

- a) Cause disease

b) Maintain good health

c) Reduce lifespan

d) Spread infection

Answer: b) Maintain good health
